Seeing at night is possible because of a pigment called visual purple or rhodopsin. Light bleaches visual purple and it must be reformed before vision is restored after going from light to darkness.

Whooping reports in

Several cases of whooping cough have been reported recently in Illinois, including one in Clair County, in a child.

In alerting the Health Department, parents to start immunizations at an earlier age. Three injections are given at two months apart, with booster doses at 12 months of age and five years.

These DPT injections are given against Diphtheria, Pertussis (whooping cough) and Tetanus.

Health officers will check their children and arrange for immunizations. They are available at local physicians and Health Department.

"Dark of the Moon" play for drama

The drama division of Lincoln Community High School fine arts department will present "Dark of the Moon," as the fall play. Written by Howard Richardson and William Berney, it is one of the most unique love stories in the history of theatre.

The play takes place in the Smoky Mountains. As the play opens the witchboy John, is in love with a beautiful girl named Barbara Allen. The superstitious townspeople resent their happiness and their meddling ends in violence and tragedy.

The presentation will be at 8 p.m. Oct. 27th and 29th, and at 3 p.m. on the 30th. Tickets may be purchased at L.C.H.S. or at the
